MRS. BLANCHARD DIES. SHAMEFUL AND FEARFUL

Wife of Louisiana's Chief Executive Passes Away At

CITY OF MINERAL WELLS.

While Her Husband, During His Sixteen Years' Congressional Career, Was at Washington Departed Lady Was Prominent in Society.

New Orleans, July 27.—Dispatches received here from Mineral Wells, Tex., announce the death there Saturday morning of Mrs. Newton C. Blanchard, wife of the governor of Louisiana. Mrs. Blanchard had been in ill health for over a year and it was on this account that she and Governor Blanchard recently went to Mineral Wells.

Mrs. Blanchard before her marriage was Miss Barrett of Caddo parish. During the time her husband was a member of the national house of representatives and later of the United States senate, covering a period of sixteen years, she was a prominent figure in Washington social life.

AGENT AGAIN ARRESTED.

Interesting Developments Are Expected to Occur in Short Time.

Asheville, N. C., July 27.—O. C. Wilson, ticket agent of the Southern railway, who was recently sentenced to thirty days on the chain gang for violating the new rate law and who was released on habeas corpus proceedings by Judge Pritchard in the United States court, has been rearrested on warrants sworn out before Police Judge Reynolds, who figured as the witness in the habeas corpus hearing. Wilson was selling tickets to Lake Toxaway when taken into custody, and many passengers, it is said, were compelled to board train without tickets. Interesting developments are expected to occur shortly.

A warrant was also issued for President Finley of the Southern railway. The warrant for President Finley was placed in the hands of a policeman, who went to Battery Park to also serve papers upon the executive head of the southern. In the meantime arrangements had been made for habeas corpus proceedings before Judge Pritchard to secure Mr. Finley's release. The policeman did not succeed in reaching the police court with his prisoner. Just as he was ready to leave his hotel a deputy United States marshal walked into the hotel and took charge of Mr. Finley. The policeman stood aside and Mr. Finley was taken to the Federal courtroom, where he was given his liberty by Judge Pritchard.

General Counsel Thomas and other officials of the Southern left for Raleigh to consult with state officials there and endeavor to arrive at a settlement of the differences existing between the railroad company and the state. Attorneys who remained here are greatly disturbed at the new turn of events.

Wilson's case was continued until Monday morning.

SALEM LAUNCHED.

Cruiser Represents a New Type of War Vessel and Speedy.

Quincy, Mass., July 27.—A new type of war vessel and one that is expected to add greatly to the efficiency of the navy in time of war was launched here Saturday from the yards of the Fore River Shipbuilding company. The cruiser is the Salem, whose duty it will be in war to look for report movements of the enemy. The Salem is to have a speed of twenty-four knots. This is greater than that of any cruiser in the navy. Several scout boats now building for the British navy are to have a slightly greater speed, but the American scout is expected to maintain her gait in any sort of weather and have twice the coal capacity of the British ships, thus giving her a much greater radius of action.

The Salem is 423 feet 9 inches long, has a breadth of 46 feet 8 inches and draft of 19 feet 1 1/2 inches. Her battery will consist of three five-inch rapid fire guns and she has two submerged torpedo tubes, quarters for eighteen officers and 340 men will be provided.

BROTHER KILLS SISTER.

Dreadful Accident That Happened in Vicinity of Tulsa.

Tulsa, I. T., July 27.—Thinking some one was in the watermelon patch, the seven-year-old son of L. E. Collins, residing north of here, picked up the family shotgun and proceeded to investigate. The weapon was accidentally discharged. Rachel Mary, ten years old, the boy's sister, who was following along a path behind her brother, received the load in her right lung, dying instantly.

Fourth Shrine in Texas.

El Paso, July 27.—Officers of El Maide temple of the Nobles of the Mystic Shrine were installed. The new temple has sixty-four charter members and is the fourth shrine established in Texas.

Maiden and Little Girl Subjected to Indignities.

FIRST RENDERED INSANE.

After Being Beaten Black and Blue and Divested of Her Clothing Miss Virginia Barish, Driven to Madness, Tries to Drown Herself.

New York, July 27.—To the series of unpunished crimes against young girls which daily, of late, has exasperated the police and put parents in the outlying districts in an ugly mood have been added for investigation the cases of Virginia Barish, seventeen years old, and Annie Falkoweko, a tot of five years. So notorious have become the cases of assault, amounting, in two recent cases, to murder, that Police Commissioner Bingham has been driven to explain that his army of policemen are insufficient to cope with this particular species of degeneracy. He has warned fathers and mothers not to allow their little ones to wander aimlessly in the streets.

The Barish girl has been driven insane by inhuman treatment. She became separated from a party of friends at North Beach Wednesday, and that night was rescued by chance from the surf, in which she was about to drown herself. She had been beaten black and blue and robbed of her clothing. When her mental condition became apparent the girl was taken to Kings county hospital. There, in a lucid interval, she told a pitiful story of assault, many of the details of which were subsequently substantiated. Attacked by a gang of nine ruffians, she was left in a state that, to her frenzied mind, suggested only suicide. It is a question whether she can recover. Little Annie Falkoweko of Staten Island went to meet her father and fell in with another man. She suffered a brutal attack, and is under the care of a physician. Joseph Nowiak, a steamship fireman, thirty-two years old, and whom the child accused, is under arrest.

MESSAGE A MISTAKE.

Son of Denison Editor Not Killed in Wisconsin Accident.

Denison, July 27.—B. C. Murray, the veteran editor of the Denison Sunday Gazetteer, received a telegram stating that his son, Ed Murray, had been killed by a train at a railroad crossing near Lacrosse, Wis. The last time Mr. Murray had heard from his son the young man was in Cheyenne, Wyo., and a telegram to that place brought forth the information that he was still there and in good health. A letter had been found on the body of the dead man of Lacrosse addressed to B. D. Murray, printer, Denison, Tex., which led the authorities there to believe that the dead man was a son of the Denison editor.

AGED LADY GONE.

Mrs. Obedience T. Lubbock Departs This Life at Bayou City.

Houston, July 27.—Mrs. Obedience T. Lubbock, aged ninety years, and for sixty years a resident of Houston, died at her home here Friday night. Deceased was the wife of Colonel T. R. Lubbock of the Eighth Texas cavalry, who died at Bowling Green, Ky., in 1862. She was a niece of former Governor Lubbock, and had a large family connection in this city.

MUCH MONEY MISSING.

Considerable Cash Disappears From Express Office.

Paris, Tex., July 27.—A package containing \$5,500 has disappeared from the Wells-Fargo express office here. It was sent from Dallas and consigned to the City National bank of this city. A warrant was issued for the arrest of a party who has taken his departure.

ANOTHER HIATUS EXISTS.

In This Instance It Applies to the New Medical Act.

Austin, July 27.—It has been disclosed that a hiatus exists in the new medical law passed by the Thirtieth legislature. The new law repeals the old act, and the governor has not yet appointed a board under the new act, consequently persons now desiring licenses to practice cannot obtain them. It is learned there are many applicants for licenses and nothing can be done until the governor acts. In other words, Texas has no medical law at present.

The Producer's Oil company paid into the state treasury \$1,291 and the Moonshine company paid \$2,413 in settlement of judgments obtained against these companies under the Kennedy tax law. These corporations contested section 13 of the law and the courts upheld the law. The companies decided to pay up and obey the law.

The American Central Life Insurance company of Indianapolis and Pacific Mutual Life of California filed reports of reserves fund and amounts loaned to policy holders in Texas, in accordance with the Robertson act.

Social and Club Matters

The Bachelorettes Club will meet Fri-
day afternoon with Miss Gertrude Eaves.

Five young ladies and an equal num-
ber of young gentlemen of the city have or-
ganized the "Jolly Ten Club" to while
away vacation with weekly social meetings
at the homes of the young ladies of the
Club. They were pleasantly entertained
by Miss Lola Betts on Thursday evening.

Senator Joseph W. Bailey, who was the
guest of Hon. W. C. Davis during his
stay in Bryan Wednesday, was enter-
tained at dinner Wednesday evening, on
his return from the barbecue, by Mr. and
Mrs. H. O. Boatwright. Those present
were Senator Bailey, Mr. and Mrs. Boat-
wright, Mr. and Mrs. W. C. Davis,
Major and Mrs. L. L. McInnis and Mr.
J. R. Astin.

The Browning Club had a pleasant and
profitable meeting with Mrs. Jno. B.
Hines Thursday and began the study of
"Pippa Passes." After the literary work
of the afternoon the hostess served pine-
apple sherbet and cake. The next meet-
ing will be held with Mrs. Seth Mooring
on Thursday, with a continuation of the
same study.

Miss Nellie Cole and the J. A.
O. Club Wednesday afternoon. In a
sewing contest Miss Charlie Jenkins was
given a sewing apron. Miss Mary Har-
ris was consoled with a "Delineator." In
a contest of sewing buttons in a given
time Miss Frances Chance was given a
pair of embroidery scissors and an emery
bag. Dainty ices and cakes were served.
The Club meets next Wednesday with
Miss Clara Mawhinney. —Reporter.

The Just Us Girls Club were the guests
of Miss Lila Adams, at the home of her
parents, Major and Mrs. Cliff A. Adams,
for a delightful meeting on the lawn Tues-
day afternoon. A "Kornelia Kinks"
contest afforded much pleasure for the
little misses, and Miss Frances Hall won
the prize, a "Kornelia" picture. Punch
and iced watermelons were the refresh-
ments. The club will meet next with
Miss Frances Hall.

Miss Lillie Reed is entertaining a merry
house party at the home of her parents,
Mr. and Mrs. B. L. Reed, at Steele's
Store. The members of the party include
Misses Lillie and Onie Reed, Irene and
Lena Board, Mary Kennedy of Navasota,
Charlie Jenkins, Willie McDougald, Helen
DeMaret, Eula Gregg, Bessie Nall;
Messrs. Bill Ettle, DeWitt Graham, Joe
Spell, Hudson Myers, Quinlan Adams,
Roy Nunn, John Preston, Henry Rohde,
Johnnie Sims. The party attended the
barbecue and dance given by Mr. and
Mrs. P. A. Reed Friday afternoon and
evening. A special train was run from
Hearne for this occasion and several hun-
dred people were present.

FOSTER'S WEATHER BULLETIN.

(Copyrighted 1907, by W. T. Foster.)

Washington, D. C., July 27.—Last bulletin gave forecasts of disturbance
to cross continent 28 to August 1, warm wave 27 to 31, cool wave 30 to 'Aug-
ust 3. Next disturbance will reach Pacific coast about August 2, cross west
of Rockies country by close of 3, great central valleys 4 to 6, eastern states 7.
Warm wave will cross west of Rockies about 2, great central valleys 4, eastern
states 6. Cool wave will cross west of Rockies about 5, great central valleys
7, eastern states 9.

About time this disturbance is crossing the continent temperatures will
average about or a little below normal and drouth conditions will prevail in
large sections of the corn belt, particularly about lower Missouri and the
middle Mississippi river valleys. Rainfall, or lack of it, during passage of
this and the following disturbance, will largely determine what the corn crop
is to be for 1907.

Severe storms may be expected during the week August 3 to 10 and hail
may do some damage in the northwest spring wheat country.

Immediately following July 27 the temperatures are expected to be mod-
erate and not much force to storms. Weather will not be oppressive except
where a large deficiency of rainfall has occurred.

August temperatures are expected to begin low and gradually rise till we
have reached September. While temperatures will increase rainfall on most
parts of the continent will decrease and severe drouth prevail in many sections.

This unusual heat and drouth will injure corn and fall pastures but will
probably not hurt cotton and spring wheat. But there is one favorable con-
dition for corn. That crop is two weeks late and this hot, dry weather, last
half of August, will hurry the crop on toward maturity and may put it beyond
the reach of September frosts.

August will bring us four special storm periods with increased force and
velocity of the disturbances. They will reach meridian 90 not far from 5, 14,
19 and 24. Last one will probably be most severe.

Three great hot waves will cross the continent in August, reaching meri-
dian 90 not far from 14, 22 and 30. Sometimes frosts occur this month in the
northwest but none appear to be scheduled for this August. Indications are
that the month will come in with much lower temperatures than it will go out
with, reversing the usual trend of temperatures for the month. First ten days
of the month will average below normal temperatures, last twenty-one days
much above normal.

My forecasts are averaging close to 70 per cent good, or 7 good to 3 bad.
I am now engaged in a strenuous effort to make 75 per cent good, or 3 good to 1
bad. To make this last 5 per cent is an immense undertaking, enough to
discourage the stoutest heart. But I expect to succeed. Seventy-five per cent
good would be practically perfect. The effort is to inform the public, a month
or more in advance, when temperatures and rainfall will be above, or below or
about normal; when temperatures will rise or fall or remain stationary; when
rainfall for the season will increase or decrease; when to expect great hot waves
or cold waves, severe storms or quiet, average weather; when crop-weather will
be favorable or the reverse; when farmers and planters should hold for better
prices. A special feature of the forecasts is to indicate when will be the best
time to harvest ice and the prospects of a large demand for that great necessity.
No one who carefully and fairly watches these forecasts will deny that they
are good two times out of three, therefore it pays to follow them.

GINNING STATISTICS.

Cotton Director North Says Ten
Reports Will Be Made.

Washington, July 27.—The census
bureau has perfected its arrangements
for collecting cotton ginning statistics,
covering the cotton crop of 1907-8.
There will be ten reports, the first
appearing Sept. 8, and the last March
20. The immediate dates of the pub-
lication will be Oct. 2, Oct. 25, Nov. 8,
Nov. 21, Dec. 8, Dec. 20, Jan. 9, and
Jan. 23. In each instance, except that
of the March report, the statement will
represent the condition of the crop
about a week before the date of the
publication. The report of March 20
will deal with the condition March 1.

As heretofore, the agents will be
given six days in which to visit the
ginneries and secure the returns. Sum-
maries of these will be wired to the
bureau on the last day of the canvass.
On the day following the close of the
canvass these telegraphic summaries
will be added and the result will be
given to the public. The reports will
be printed and mailed within twenty-
four hours after publication to all gin-
ners and to others interested.

Last season these reports were pub-
lished at 2 p. m. on the day following
the close of the canvass, but this sea-
son the bureau will endeavor to pub-
lish the results at 10 a. m. The publi-
cation at this hour will permit the re-
sults to reach Europe within trading
hours on the day that they are publish-
ed in America. This is in line with the
earnest request of European ginners
of American cotton, and it is believed
that by enabling them to trade in their
markets on the day of the report the
fluctuation in the price of cotton and
the results of speculation of products
on these occasions will be reduced.
Between the hours of 6 a. m. when the
agents complete their canvass and
make their county summaries for tele-
graphing and 10 a. m. in the morning
when the reports are published in
Washington, no business is transacted
on cotton exchanges in this country,
and hence, under this system, Director
North says there can be no improper
use of the information. Two of the
publication dates, Sept. 8 and Dec. 8,
fall on Sunday, and Director North
stated that these two dates would be
changed.

Matter of Saloon License.

Dallas, July 27.—County Attorney
Lewelling has received a ruling from
Assistant Attorney General Pollard to
the effect that County Judge Lively
has no authority to issue licenses to
parties desiring to operate saloons
outside of the limits prescribed by the
charter of the city of Dallas. This ruling
will affect a number of persons in
this city.

SEVEN RESIDENCES BURN.

Oak Cliff Section of Dallas Suffers
Severe Fire Loss.

Dallas, July 27.—As the result of a
fire in the Oak Cliff section of the city
seven residences, some of them costly
structures, and most of their contents,
were entirely destroyed Saturday
morning. Five of the dwellings were
two stories high. Loss is about \$15,000.
An oil explosion was the cause.

Indigestion Rheumatism

Stomach trouble is but a symptom of, and not
itself a true disease. We think of Dyspepsia,
Heartburn, and Indigestion as real diseases, yet
they are symptoms only of a certain specific
Nerve sickness—nothing else.
It was this fact that first correctly led Dr. Shoop
in the creation of that now very popular Stomach
Remedy—Dr. Shoop's Restorative. Going direct
to the stomach nerves, alone brought that success
and favor to Dr. Shoop and his Restorative. With-
out that original and highly vital principle, no
such lasting accomplishments were ever to be had.
For stomach distress, bloating, biliousness, bad
breath and sallow complexion, try Dr. Shoop's
Restorative—Tablets or Liquid—and see for your-
self what it can and will do. We sell and cheer-
fully recommend

**Dr. Shoop's
Restorative**

M. H. JAMES.

I have found a tried and tested cure for Rheu-
matism! Not a remedy that will straighten the
disorted limbs of chronic cripples, nor turn bony
growths back to flesh again. That is impossible.
But I can now surely kill the pains and pangs of
this deplorable disease.
In Germany—with a Chemist in the City of
Darmstadt—I found the last ingredient with
which Dr. Shoop's Rheumatic Remedy was made
a perfected, dependable prescription. Without
that last ingredient, I successfully treated many
many cases of Rheumatism; but now, at last, it uni-
formly cures all curable cases of this heretofore
much dreaded disease. Those sand-like granular
wastes, found in Rheumatic Blood, seem to dissolve
and pass away under the action of this remedy as
freely as does sugar when added to pure water.
And then, when dissolved, these poisonous wastes
freely pass from the system, and the cause of
Rheumatism is gone forever. There is now no
real need—no actual excuse to suffer longer with-
out help. We sell, and in confidence recommend

**Dr. Shoop's
Rheumatic Remedy**

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong hearts, strong digestion, strengthen those nerves—re-establish them as needed, with

Dr. Shoop's Restorative
M. H. JAMES.

BORAH DRAMATIC.

Endeavors to Prove Orchard Is Tool of Haywood.

Boise, Ida., July 27.—"Watch these five men, Simpkins, Orchard, Haywood, Moyer and Pettibone—Steunenberg is to die in thirty days. Watch them. We have got them together. They're moving to the scene."

This was the dramatic climax reached Friday morning in the Haywood trial when, for an hour and a half, Senator Borah, making the last argument, had woven craftily the mesh of his net. The theme was conspiracy, the essence of the case of the state of Idaho in its efforts to show that Harry Orchard was only the tool of Haywood when he killed the former governor.

"Now watch this quintette," he cried triumphantly, having laid his foundation piece by piece, using only the testimony of the witness of the defense, picking it from the mass of mixed material, he showed the intimacy between Orchard and the highest officers of the Federation.

The dramatic utterances and tense figure of the pleader sent a thrill through the court room. For the space of ten seconds there was silence. Then relaxing, Borah continued with his merciless logic. He brought Davis, Copley, Adams and Easterly, all officers or members of the Western Federation of Miners, into touch with Orchard. Without a pause he drew picture after picture of them, associating them at the various points. From each place, and fresh from every crime he brought Orchard back "home to Denver," and then, smiling, leaned toward the jury to ask: "Why, why always back to Denver, unless it was to find there the protection and pay of his employers?" All these things denounced or sneered at by counsel for the defense found a bold and brilliant defense in Senator Borah's interludes. Counsel for defense were driven into a murmur of protest, now under the lash of pointed sarcasm, and again, when, under satire of indignant reproach, culture and Christianity, law and order, refinement, the home and the country found a champion. The state of Idaho, its people and its chief executive, each in turn, were given a brilliant eulogy.

Mrs. Steunenberg, widow of the dead governor, attended the morning session, but left early, almost prostrated by the emotion awakened by Borah's vivid oratory. Haywood's mother also left the court room, but soon returned to take her accustomed place beside the invalid wife. Senator Borah's peroration was delivered in quiet, almost pleading, tones, in contrast to the harder voice in which he spoke of Clarence Darrow's argument of justification.

"If," he said, "the state has pointed out to you the men who were concerned in and executed this awful crime, ten, in the name of the manhood and the womanhood of Idaho, do your duty without fear of any man or any favor to any man."

"Let us then be brave in this supreme moment. If the defendant is innocent let him go free; but if not, then let him take the punishment that the law prescribes."

"You have a higher duty to perform than ever was asked of a jury in Idaho. Some of you men have stood the test in the protection of your wives and your flag; but you have never faced a duty that required a higher courage than now."

At the close of the senator's speech he was surrounded and congratulated by nearly every one in the court room, including counsel for the defense.

ICE IN DEMAND.

Mobs at Monroe Soon Emptied Wagons Containing Frozen Fluid.

Monroe, La., July 27.—After a day of terrible heat and dust, with the temperature near 105 all the afternoon, Monroe Friday night was without ice and water. The local artificial ice plant cannot supply the demand, and nearby cities have cut off their supply. The few ice wagons which run were emptied by small mobs on the streets. The officials of the ice company declare they will not raise the price, and that ice ordered from New Orleans will be sold at bare cost.

Three Prostrations.

Memphis, July 27.—The maximum temperature was 95 degrees and three prostrations were reported. At night a heavy electrical and rainstorm was general over this vicinity.

BEATEN TO DEATH.

Cowardly Revenge That an Arkansas Woman Resorted To.

Little Rock, July 27.—After quarreling with her husband Mrs. William Blackburn of Montgomery county waited until Blackburn left the house and then attacked her twelve-year-old stepdaughter, beating her to death with a broomstick. The child's back was broken and her skull fractured. The woman is under arrest and sentiment is high against her.

Two Arrests Made.

Fort Worth, July 27.—Charley George, an employee of the hide department at Swift's packing plant, and Will Rubrecht, an employee of the Stock Yards company, were arrested, charged with the murder of Arthur Hodges.

Day County Tragedy.

Guthrie, July 27.—Near Rowe, in Day county, "Bill" Hammond was shot and killed following a quarrel regarding the ownership of some bar wire. A homesteader named Parm went to Grand and voluntarily surrendered to the sheriff.

Nine Men Drown.

Toronto, Ont., July 27.—During a heavy thunder storm a gasoline launch with ten men on board capsized and only one succeeded in reaching the nearby shore. All the dead are of Toronto Junction.

VARICLE PASSES AWAY.

Dentist, Scientist, Balloonist and Also an Inventor.

Seattle, Wash., July 27.—Dr. Antony Varicle, an inventor scientist, balloonist and dentist, known from Paris to Dawson, died at Providence hospital after an illness lasting several weeks. Dr. Varicle had been practicing dentistry in this city some years past, following his return from the north. In the realm of invention Dr. Varicle was known for a telegraph invention which transmits handwriting and drawings, a combination key used by the French government in connection with time locks on all postoffice property and a number of small devices. Dr. Varicle was known in the north for his proposed dash for the North Pole.

RADIUM EMANATIONS.

Distinguished Chemist Will Give in Writing Results of Research.

London, July 27.—Sir William Ramsey, the distinguished chemist, has promised to communicate in writing in the near future to the Chemical society the results of his researches into radium emanations. In this connection the announcement is made that he has succeeded in degrading copper to the first member of its family—that is, lithium. The Lancet says this discovery marks an epoch in the history of chemical science and believes it is the realization of the transmutation of metals.

WATER BICYCLE.

Mexican Student at Cornell University Invents and Operates It.

Ithica, N. Y., July 27.—Jose Antonio Estes, a Mexican student at Cornell university, has invented a water bicycle on which he has taken several rides on the waters of Lake Cayuga without danger. The bicycle consists of a frame in the shape of a delta built on two large water shoes five feet long. In the rear of the contrivance there is an eight-bladed paddle wheel, which is propelled by two pedals, which move a small sprocket and this, in turn, moves a long chain which causes the wheel to revolve.

PREACHER-DEPUTY'S WORK.

Confiscates Over Two Thousand Quarts of Fire Water.

Guthrie, July 27.—Rev. C. C. Brannon of Cushing, local pastor of the Methodist Episcopal church, and who holds a deputy United States marshal's commission for the purpose of assisting in the search of bootleg whisky on Indian reservations, has the record of seizing and confiscating 2,000 quarts of whisky during the past month. The greater portion of this was located and seized in Indian Territory towns.

SENATOR PETTUS DYING.

Aged Alabamian Passing Away at Hot Springs, N. C.

Hot Springs, N. C., July 27.—While at the breakfast table United States Senator Pettus of Alabama, who is a guest at the hotel here, was taken suddenly ill, soon becoming unconscious. His physicians at noon Saturday pronounced his case hopeless and stated the end was liable to come at any time.

NINE PASSENGERS DROWN.

Steamboat Frontenac on Cayuga Lake Prey of Flames.

Auburn, N. Y., July 27.—The steamboat Frontenac was burned on Cayuga lake Saturday afternoon opposite Farley's Point. Nine of the fifty passengers drowned and several were injured.

Mrs. Carter Indicted.

New York, July 27.—Julia M. Carter, the woman who betrayed Chester B. Runyan, the paying teller of the Windsor Trust company, who stole \$96,000, to the police, has been indicted for receiving stolen goods. Runyan says he gave her \$15,000 of the \$80,000 in cash he stole and that she took another \$10,000 when he was not looking.

Wanted at Dallas.

Richmond, Va., July 27.—Archle Cunningham, alias John Lee, alias Frank Hayes, charged with stealing a ring from a woman, was identified by detectives as a man who is wanted by the authorities of Dallas, Tex., for grand larceny.

Revolution Breaks Out.

Rio de Janeiro, July 27.—A revolutionary movement has broken out in one of the Argentine provinces bordering on Brazil. The Brazilian government sent troops to the frontier in order to prevent violation of neutrality.

Slight Drop.

Washington, July 27.—Reports received at the weather bureau showed a slight drop in the temperature in Virginia, the great lake regions, the Ohio valley and New England Friday. The weather continued warm in the south.

Dreadful Sight.

Charlotte, N. C., July 27.—Harry Powers, with a bullet hole in his head, was found dying, and the dead body of Mrs. Powers, shot and terribly mangled, were found in a room in the rear of their store. Bottles covered the floor.

Kaufman County Divorces.

Kaufman, Tex., July 27.—During the past twenty years 1,100 divorces were granted in this county.

Drouth Causes Alarm.

Eastport, N. Y., July 27.—Drouth of a month on Long Island causes alarm. Prayers to God for rain are being offered.
